

#### IV. REMARKS

Claims 1-17 are pending in this application. By this amendment, claims 1 and 5 have been amended. Claim 7 has been canceled. Applicants do not acquiesce in the correctness of the rejections and reserve the right to present specific arguments regarding any rejected claims not specifically addressed. Further, Applicants reserve the right to pursue the full scope of the subject matter of the original claims in a subsequent patent application that claims priority to the instant application. Reconsideration in view of the following remarks is respectfully requested.

In the Office Action, claims 1-6 and 8-10 are rejected under 35 U.S.C. §102(e) as allegedly being anticipated by Cape Clear (CapeConnect 1.0 Technical Overview, February 2001), hereafter "Cape Clear." Claim 11 is rejected under 35 U.S.C. 103(a) as allegedly being unpatentable over Cape Clear in view of Larry Peterson ("A Yellow-Pages Service for a Local-Area Network", Department of Computer Science, University of Arizona, 1988, ACM), hereafter "Peterson."

Initially, Applicants thank the Examiner for indicating the allowance of claims 13-17, and the allowability of claims 7 and 12. Applicants assert that the cited art does not teach each and every feature of the claimed invention. With particular respect to independent claims 1, Applicants respectfully submit that Cape Clear fails to teach or suggest, among other things, "a receiving component for a uniform resource locator of the server and for parameter data indicative of the second object type for selection of the second object type client component." Since these defects are not remedied by Peterson, Applicants request that the above referenced rejection be withdrawn.

In light of the above, Applicants respectfully submit that all claims are in condition for allowance. Should the Examiner require anything further to place the application in better condition for allowance, the Examiner is invited to contact Applicants' undersigned representative at the number listed below.

Respectfully submitted,

Date: September 1, 2004
